HTML   CSS   JavaScript

Python   Bootstrap

Projects

Portfolio Website

Fully responsive portfolio website for all devices using HTML CSS and JavaScript. Includes downloadable Cv

Landing page

Created a fully responsive landing page for a dating app using HTML and CSS with an animated button.

Eccommerce Website

Fully responsive clothing online website using HTML CSS and Bootstrap . Different sections such as product categories menu with toggle menu on small screen and sliding banners, on sale products widgets.

Social Network website

Social networking platform for women in tech as part of my final portfolio project for the ALX software engineering program. Technologies used include HTML, CSS and JavaScript.
